

Carbon Filter

ACTIVE FILTRATION line of filtration equipment

a product by Elite Manufacturing Specialists

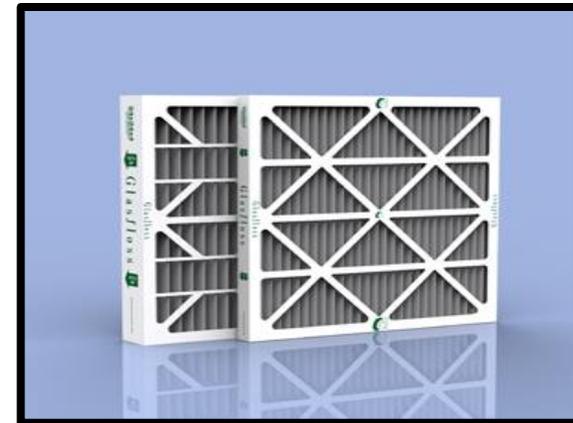

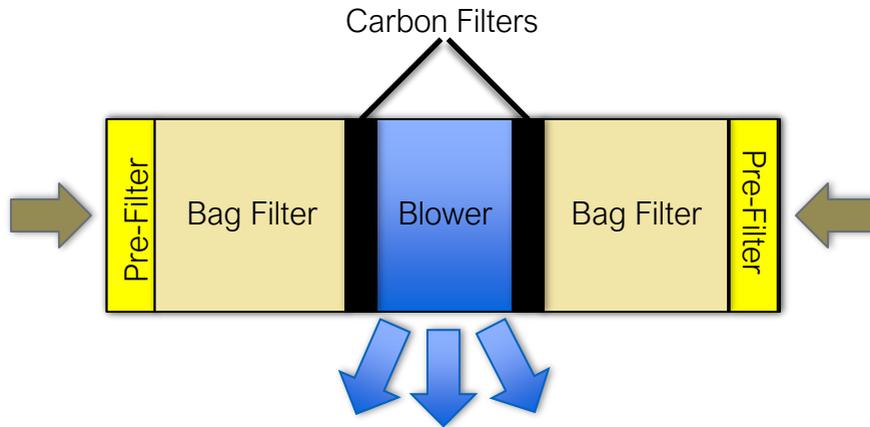

Carbon filters are used to remove odors.

Including

- ✓ vehicle exhaust
- ✓ cigarette smoke
- ✓ varnish fumes
- ✓ kerosene
- ✓ many more

Active carbon filters are placed behind the bag filter allowing an additional level of filtration to greatly diminish odors. Carbon filters work by capturing molecules and trapping them in the filter's active carbon.

Additional pricing per unit	
3000E / 4500E Unit	\$120
2000E Unit	\$60
